

Ancient Roads Committee Meeting
Tuesday May 12, 2009, Town Office 6:00 pm

Meeting called to order by President Brian Gray at 6:06 pm

Present: Brian Gray, Larry Labor, Allan Wooley, Ilene Douglas, Carey Tomkins, Ken Whitehill, and Maryann Beaupre.

Minutes of previous meeting were accepted as read.

Allan Wooley has transcribed all of the first 40 roads and sent them to Paul Hannon. Paul Hannon answered us with a letter suggesting that we have a training of how to get the information so he could use it to graph the map. Discussion ensued of when and how we would proceed with this training. We decided that Thursday May 28th to begin at 9 am at the Town Clerks Office. We opted for him to stay for as long as it will take to train us, maybe even 5 hours. Our intent is for him to pick a problem road and go from beginning to end and show us all the tricks to get to the bottom of its position.

Finances get the last payment upon completion of project. We have approximately \$1,100 in the account.

Where do we go from here?

Tentative Paul Hannon to come on 5/28/2009 at 9 am. All have said they will try to be here: Allan, Larry, Carey, Ilene, Ken, Maryann and Brian.

We need to wait till after training to parcel out road starts and ends from Paul Hannon's list.

Parcel out the map draw work for volume 3 – 5, and parcel out Excel inventory work for volumes 3 – 5 have been tabled until after training.

More projects for Paul Hannon? Have a meeting with him and set the next meeting.

Meeting adjourned at 7:10 pm.

Respectfully submitted by Maryann Beaupre', interim secretary
